ADVENTURES ARE **BOUNDLESS**

What started as a small vision to exceed expectations has now become the standard for innovation in boating. Each model features the fundamental elements of our Kevlar®-reinforced Extended V-Plane hull. This design extends the running surface and shifts the propulsion point forward, resulting in quicker planing, steadier handling at slower speeds, improved fuel efficiency, and effortless control in rough waters. Advanced technology at the helm connects you to this performance with precision, while every luxurious detail is crafted to endure and inspire.

CRAFTED FOR
OVER 60 YEARS

Every Chaparral boat carries a legacy built on over sixty years of performance and craftsmanship. Today, our team of skilled, multi-generational builders continues this proud tradition, crafting each model with the same passion and precision that has defined Chaparral for more than six decades. With 18 consecutive Customer Satisfaction Index (CSI) awards and a heritage marked by engineering excellence, Chaparral holds a unique advantage in both refinement and performance.

ssi

The SSi Sport Boats are designed for agility on the water and feature Chaparral's Extended V-Plane running surface, enhancing the full-throttle experience with either inboard or outboard power options. These boats are conveniently sized for easy trailering and garage storage, and they come with a trailer included in the price, making them the perfect choice for weekends filled with new adventures.

SSX

Elegant and powerful, the SSX line of luxury bow-riding boats were designed to effortlessly carve up inland or coastal waterways. The cockpit is well-appointed with convertible seating making on-water days comfortable and inviting to the whole crew. There's no mistaking the style lines, attention to detail, and the efficient use of space in the SSX.

GTS

The next generation of multi-sport boats is here. The new GTS series is specially engineered to deliver the same deep-V performance as the rest of the Chaparral lineup, but with the added capability to make the wakes and waves that wakeboarders and wakesurfers chase.

GTS - SURF

THE GT SURF SYSTEM DEFY THE LIMITS

With the GT (Gen. Two) Surf System, key elements in Chaparral's Extended V-Plane hull are reinvented for a quicker, more responsive design that excels through the chop. Custom wake-shaping technology, with the quick-fill ballast and Malibu Surf Gates, creates the ultimate surfing experience.

No Vinyl. Only the highest quality, eco-friendly silicone upholstery.

Designed with intent. Surf Ride Control puts everything within reach.

Patented Infinity Power Step for easy access to the water.

Malibu Surf Gates® & custom tabs channel water to create the perfect surf wave.
